National Korea Maritime and
Ocean University, Busan 49112,
Republic of Korea

Deadline for manuscript
submissions:

closed (31 August 2023)

Message from the Guest Editor

Currently, healthcare and bioelectronics in artificial intelligence are becoming more and more complex and sophisticated faster than ever before.

In this SI, we aim to start a discussion about a basic convergent study that would contribute to humanity by respecting human beings and their lives, while aiding and serving neglected or isolated people. It is open to receiving a variety of meaningful and valuable manuscripts concerning the purpose of solving the healthcare issue based on electronic solutions. Subjects are listed below, but not limited to:

- > Electronic service respecting human beings and their lives;
- > Electronic solutions to artificial intelligence and Big Data;
- > Means of aiding and serving neglected people like the disabled or elderly;
- > Electronic engineering mathematical theories that deeply affect science and industry;
- > Intelligent media techniques and services for systems engineering;
- > Intelligent Security/Blockchain techniques and services for improved systems engineering;
- > A public electronic engineering integration system for the future systems;

an Open Access Journal by MDPI

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
