Message from the Guest Editors

The application of electronic findings to biology and medicine has significantly impacted health and wellbeing. Recent technology advances have allowed the development of new systems that can provide diagnostic information on portable point-of-devices or smartphones.

We are inviting original research work covering novel theories, innovative methods, and meaningful applications that can potentially lead to significant advances.

Keywords covering the Special Issue topic include:

- Chronic and acute pathologies;
- Cognitive and neurodegenerative disorders;
- Noninvasive physical sensing, e.g., vital functions;
- Medical imaging, including cellular;
- Machine learning and deep learning in biomedical sciences;
- Clinical decision support and reliability of decisions;
- Medical datasets and health technologies assessment;
- Health monitoring and compliance, also personalized;
- Rehabilitation, including home healthcare and independent living;
- Electronic health record systems, including personal;
- Data collection technologies and devices;
- Diagnostic speed, accuracy and reliability; and
- Regulatory science.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
