

Grid-Connected PV Systems

Guest Editors:

Prof. Dr. Huafeng Xiao

School of Electrical Engineering,
Southeast University, Nanjing
210096, China

Prof. Dr. Frede Blaabjerg

Department of Energy
Technology, Aalborg University,
9220 Aalborg, Denmark

Dr. Chushan Li

Zhejiang University - University of
Illinois at Urbana-Champaign
Institute, Zhejiang University,
Haining 310058, China

Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

The main aim of this Special Issue is to publish high-quality submissions that highlight technical trends of grid-connected PV systems and address recent breakthroughs in the modeling, safety, reliability, high power density, smart control, and power shifting for grid-connected PV systems. The topics of interest include but are not limited to:

- Modeling and analysis methods of grid-connected PV systems;
- Safety issue of grid-connected PV systems;
- Topologies for grid-connected PV systems;
- Control strategies for grid-connected PV systems;
- Wide-bandgap (WBG) devices applications in grid-connected PV systems;
- High-frequency and high-power density of grid-connected PV systems;
- Energy storage strategies for grid-connected PV systems;
- Standard aspects of grid-connected PV systems

The deadline to submit papers to this special issue is **31 October 2022**. However, papers submitted in advance will be peer-reviewed and may be published well before this deadline. For more details, please click [here](#).

an Open Access Journal by MDPI

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
