

## New Insights and Applications in Positioning Systems

Guest Editors:

**Dr. Pyo-Woong Son**

Ocean and Maritime Digital  
Technology Research Division,  
Korea Research Institute of Ships  
and Ocean Engineering, Daejeon  
34103, Republic of Korea

**Dr. Stefan Gewies**

Institute of Communications and  
Navigation, Nautical Systems  
Department, German Aerospace  
Center (DLR), Kalkhorstweg 53,  
17235 Neustrelitz, Germany

**Prof. Dr. Byungwoon Park**

School of Aerospace Engineering,  
and Convergence Engineering for  
Intelligent Drone, College of  
Engineering, Sejong University,  
Seoul 05006, Republic of Korea

Deadline for manuscript  
submissions:

**closed (15 December 2023)**

### Message from the Guest Editors

The field of positioning systems has seen significant advances in recent years, with various representative systems such as Global Navigation Satellite System (GNSS), Inertial Measurement Unit (IMU), Radar, and Lidar being used to calculate positions. However, with the increasing demand for more accurate and reliable position information, the limitations of these existing technologies have become apparent. As a result, there is a growing need for new positioning systems that can overcome these limitations and provide more accurate and reliable location information. The Special Issue aims to address this need by exploring the latest advances and innovations in the field, with a focus on new methods, technologies, and applications for positioning systems.

Relevant topics include but are not limited to the following:

- GNSS
- Sensor fusion
- APNT
- eLoran
- R-Mode
- LTE/5G
- UWB radar

an Open Access Journal by MDPI

Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
