submissions:
closed (31 October 2021)

Message from the Guest Editors

Dear Colleagues,

Technological development and monumental innovation are progressing faster than we ever imagined. Novel systems and designs caused by emerging technologies have the potential to totally change our lives and interactions between human and the environment. Particularly, new products, devices, and applications propelled by the advance of electronics technologies are going to impact every aspect of our daily life. In light of such technological innovation, the field of electronics has also evolved from devices, circuits, and technologies, to systems and applications.

This Special Issue (SI) is aimed at soliciting the good articles from 2021 IEEE ICET demonstrating significant breakthroughs in all areas of electronics and associated system-level applications.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
