Engineering, National Chin-Yi  
University of Technology, Taiping  
District, Taichung City 41170,  
Taiwan

Deadline for manuscript  
submissions:

**closed (31 May 2019)**

### Message from the Guest Editors

Dear Colleagues,

The 4th IEEE International Symposium on Computer, Consumer and Control, 2018 (IS3C 2018), will be held 6–8 December, 2018, in Taichung City, Taiwan, and is organized by IEEE and the National Chin-Yi University of Technology, and is sponsored by the IEEE Computer Society. Details of this conference can be found on the website, <http://is3c2018.ncuteecs.org/>. This conference offers a great opportunity for scientists, engineers, and practitioners to present the latest research results, ideas, developments, and applications, as well as to facilitate interactions between scholars and practitioners. As suggested by the name of the conference, the theme of this conference covers computer, consumer electronics, renewable energy, systems and control, and digital signal processing. Original high-quality papers related to this theme are especially solicited, including theories, methodologies, and applications in computing, consumer and control for electronics. All accepted papers will be published in the conference proceedings. Selected papers will be recommended to *Electronics* for Special Issue publication.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Flavio Canavero

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
