Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editors

Dear Colleagues,

Research on the effects of radiation on advanced electronic devices and integrated circuits has increased rapidly over the last few years, resulting in many interesting approaches to the modeling of radiation effects and the design of advanced radiation-hardened electronic devices and integrated circuits.

The main aim of this Special Issue is to seek high-quality submissions that highlight emerging applications and address recent breakthroughs in modeling radiation effects in advanced electronic devices and integrated circuits. The topics of interest include, but are not limited to:

- Basic mechanisms, Compact modeling of radiation effects in advanced electronic devices, integrated circuits and novel devices.
- Radiation hardening and fault tolerance for advanced electronic devices, integrated circuits and novel devices.
- Radiation environment influence: space, atmospheric, terrestrial and artificial.
- Radiation effect characterization and radiation hardness assurance testing.
- New developments of interest to the radiation effect community.

an Open Access Journal by MDPI

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
