

Research Progress of Machine Learning and Pattern Recognition Application

Guest Editor:

Dr. Qian Yin

School of Artificial Intelligence,
Beijing Normal University, Beijing
100875, China

Deadline for manuscript
submissions:

closed (30 September 2023)

Message from the Guest Editor

In this Special Issue, we look for new contributions, including theoretical issues and applications of the discipline. Topics of interest include all aspects of algorithms and models for machine learning and pattern recognition, including but not limited to the following detailed list:

- Machine learning and data mining
- Open world robust pattern recognition
- Intelligent systems
- Document and media analysis
- Biometrics, human analysis, and behavior understanding
- Signal processing for pattern recognition solutions
- 2D/3D object detection and recognition
- Image and video analysis and understanding
- Machine learning for systems
- Efficient model training, inference, and serving

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
