

## Multi-Scale Communications and Signal Processing

Guest Editors:

**Prof. Dr. Miaowen Wen**

School of Electronic and  
Information Engineering, South  
China University of Technology,  
Guangzhou 510640, China

**Dr. Yu Huang**

Research Center of Intelligent  
Communication Engineering,  
School of Electronics and  
Communication Engineering,  
Guangzhou University,  
Guangzhou 510006, China

**Dr. Xuan Chen**

Research Center of Intelligent  
Communication Engineering,  
School of Electronics and  
Communication Engineering,  
Guangzhou University,  
Guangzhou 510006, China

Deadline for manuscript  
submissions:

**closed (15 July 2025)**

### Message from the Guest Editors

This Special Issue comprises selected papers from the proceedings of The 8th International Conference on Computer and Communications Systems (ICCCS 2023). This conference offers an annual platform for international scientists, engineers, and researchers to present the latest research results, ideas, developments, and applications in communication fields. We welcome regular research and review articles on all aspects of communication. Potential topics include, but are not limited to, the following:

1. Internet of BioNano Things (IoBNT) and biocyber interfaces
2. Signal detection methods in IoBNT with molecular or terahertz communications
3. Bio-compatible multiple access mechanisms
4. Energy-efficient modulation schemes for molecular or terahertz communications
5. Security and privacy in multi-scale Internet of Things
6. Multi-scale underwater communication methods
7. Upper layer design in IoBNT
8. Analysis and modeling of molecular noise signal
9. Channel modelling, characterization, estimation, and simulation
10. Abnormality detection and localization for nano networks
11. Coding theory
12. Application for molecular or terahertz communications
13. AI and big data for multi-scale communication systems

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
