

Recent Advances in RF, Microwave, and Millimeter-Wave Integrated Circuits and Devices

Guest Editors:

Prof. Dr. Paolo Colantonio

Electronic Engineering
Department, University of Roma
Tor Vergata, 00133 Rome, Italy

Dr. Chiara Ramella

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Prof. Dr. Marco Pirola

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Deadline for manuscript
submissions:

closed (31 July 2023)

Message from the Guest Editors

In recent decades, microwave electronics have represented the key element for the disruptive advancements and spread of wireless technologies, today finding applications in mobile and satellite telecommunications, IoT, automotive, quantum electronics, radars and remote sensing systems. The constant increase in performance-demanding applications is enabled by the continuous advancements in microwave technologies, from RF-CMOS to compound semiconductor processes, as well as in microwave integrated circuit design and characterization techniques.

This Special Issue is devoted to collect selected papers, both original research papers and reviews, on RF, microwave and millimeter wave devices, circuits and systems.

Relevant topics include but are not limited to:

- High-frequency integrated circuit analysis and design;
- Microwave measurement techniques;
- High-frequency devices and components;
- Antenna analysis and design;
- Radar systems;
- Remote sensing systems;
- Telecommunication systems.

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
