Message from the Guest Editors

Power converter technologies play a key role in power systems and can be found in a wide range of applications. This Special Issue is intended to address the latest developments and future trends in power converter technologies and advanced control methods in power electronics applications.

keywords:

- Power electronics
- Power converters
- Power converter technologies in electric motor drives
- Power converter technologies in electric vehicles
- Power converter technologies in microgrids
- Power converter technologies in renewable energy systems
- Control of power converters
- Model predictive control of power converters
- Multilevel converters
- Pulse width modulation schemes

Welcome to contribute.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
