Deadline for manuscript  
submissions:

**closed (15 September 2024)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue highlights studies and applications and addresses new technologies related to optical fiber sensors, together with emerging standards and research topics that would push forward the realization of smart cities and the Internet of Things. Research areas may include, but are not limited to, the following:

1. Novel theories and concepts for fiber-optic sensing;
2. New fiber design and fabrication for sensing applications;
3. Modeling reliability analysis of fiber-optic devices, circuits, and systems;
4. Circuit and system design and optimization for emerging remote sensing technologies;
5. Digital signal processing in fiber-optic sensor networks, and sensor fusion techniques with multi-modal data;
6. Thermal-aware electronics, system-on-chip, and network-on-chip combined with fiber-optic sensing systems;
7. Innovative fiber-optic sensor design and verifications with high accuracy and reliability;
8. Application of fiber-optic sensors in any area including healthcare, bio-sensing, smart homes, smart cities, environment monitoring, structural health, battlefield surveillance, robotics, and oil and gas leakage.

Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
