submissions:

**closed (10 November 2021)**

### Message from the Guest Editors

Dear Colleagues,

The open access journal *Electronics* (ISSN 2079-9292, Impact Factor: 1.764 (2018)) is launching a Special Issue on 'Real-Time Systems, Cyber-Physical Systems and Applications'.

Specifically, in the topic of real-time systems, anticipated emerging topics include scheduling, hypervisors, operating systems, tools, mixed criticality systems, multicore integration, design and verification, modeling, performance analysis, fault tolerance, and system experimentation and deployment experiences.

In the subject of cyber-physical systems, topics of interest include new theories for CPS, design methods, simulation/emulation for CPS, tools chains, CPS architectures, security and privacy, hardware/software integration analysis techniques and performance analysis, robustness, and safety.

The subject of applications includes the applications of the previous domains that provide new complementary aspects to real-time systems such as machine learning techniques, middleware, IoT, and Industry 4.0.

We welcome your contribution.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
