Message from the Guest Editors

Dear Colleagues,

This Special Issue welcomes original research papers as well as review articles and short communications focusing on the aforementioned areas. Topics of interest include, but are not limited to, the following:

- Semantic sensor networks and smart grids;
- Semantic services and agent systems;
- Implementation of services for semantic interoperability;
- Data acquisition, cleaning, and integration using AI techniques;
- Semantic and rule-based systems for data interpretation, coding, and presentation in different domains (health, education, smart homes, environment, etc.);
- Application and research in semantic web for IoT;
- Semantic interoperability and system alignment;
- Semantic artificial intelligence;
- Semantic reasoning and machine learning processes.

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.
Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
