### Message from the Guest Editors

It has now been ten years since the first paper was published in Electronics back in 2011. With many highs and many lows, we went through a rock road, and we are proud to have reached this very important milestone of the 10th anniversary of the journal. To celebrate this momentous occasion, a Special Issue is being prepared which invites both members of the Editorial Board and outstanding renowned authors, including past editors and authors, to submit their high-quality works on the topic of "Recent Advances in Semiconductor Devices".

Topics of interest include but are not limited to the following:

- Semiconductor device applications
- Fabrication processing
- Simulation (theory)
- Quantum devices
- Hybrid electronic and semiconductor devices
- Semiconductor devices for energy
- Flexible devices
- Semiconductor material and device physics
- 2D materials for devices
- New technology for semiconductor devices
- Semiconductor optoelectronic and photonic devices and processing

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
