Message from the Guest Editors

Dear Colleagues,

This Special Issue invites original scientific and research articles on state-of-the-art human activity recognition, vital sign monitoring using various sensing techniques (contact and non-contact), and remote patient monitoring in the advanced intelligent healthcare sector. Additionally, this issue invites articles/reviews on cybersecurity for human activity recognition. The core idea is to provide an opportunity to academics, researchers, and industry professionals to showcase their current developments and set future directions.

The topics:

- Data analytics for human activity recognition in intelligent healthcare;
- Wearable sensors, devices, or techniques for physiological monitoring;
- Wearable sensors health applications;
- Software-defined radios for vital signs monitoring;
- Disease detection based on handwriting using deep learning;
- Identifying disorders using eye movements;
- Heart rate monitoring techniques using machine learning;
- Gait analysis using wireless sensing;
- Cybersecurity in remote patient monitoring.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
