Prof. Dr. Tien-Wen Sung

College of Information Science
and Engineering, Fujian
University of Technology, Fuzhou
350118, China

Dr. Chao-Yang Lee

Department of Computer Science
and Information Engineering,
National Yunlin University of
Science and Technology, Douliou
640301, Taiwan

Deadline for manuscript
submissions:

closed (15 May 2024)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to publish original research and review articles discussing control theories, communications, applications, and implementations relevant to various types of green communications and networks. Topics of interest include, but are not limited to:

- Design, development, and implementation of green communications and networks
- Architectures, communications, and applications for wireless sensor networks (WSNs), wireless ad hoc networks (WANETs), and vehicular ad hoc networks (VANETs)
- Architectures, communications, and applications for unmanned aerial vehicles (UAVs)
- Green communications for Internet of Things (IoT)
- Green communications for cloud computing technologies
- Green communications for smart cities
- Artificial intelligence strategies for green communication and network technologies
- Intelligent systems for green communication and network technologies
- Energy management for green communication and network technologies
- Applications for green communication and network technologies
- Security and privacy for green communication and network technologies

an Open Access Journal by MDPI

Editor-in-Chief

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
