Deadline for manuscript
submissions:

15 October 2024

Message from the Guest Editors

We are pleased to invite you to contribute to a Special Issue on "Innovative Technologies and Services for Unmanned Aerial Vehicles" in *Electronics*. Unmanned aerial vehicles (UAVs) have emerged as a transformative technology with a wide range of applications in various domains. This Special Issue aims to explore the latest developments in UAV technologies and services, highlighting innovative solutions that enhance their capabilities and applications.

We aim to foster interdisciplinary discussions and collaborations to push the boundaries of UAV applications. By bringing together high-quality research articles and reviews, we seek to create a comprehensive overview of the advancements in this field and stimulate further research and development.

The scope of this Special Issue encompasses a broad range of topics related to innovative technologies and services for UAVs. We encourage submissions in areas including, but not limited to:

- Autonomous navigation and control systems
- Sensing and imaging technologies
- Communication and networking
- Payload and service delivery
- Energy efficiency and sustainability
- Regulatory and legal aspects

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
