Deadline for manuscript
submissions:

closed (15 December 2023)

Message from the Guest Editors

Dear Colleagues,

We are inviting submissions to this Special Issue, entitled Advances in Integrated Photonics: Technologies, Devices and Circuits. This Special Issue aims to publish high-quality research on integrated photonics utilizing the properties of photon–light or photon–electron interactions. Integrated photonics is believed to overcome the limitations of conventional electronics in terms of speed, capacity and functionality. This Special Issue confronts the fundamental principles, cutting-edge research investigations, and recent advances in integrated photonics materials, devices, circuits and their process technologies. We encourage theoretical, simulation, and experimental studies, as well as comprehensive review and survey papers.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
