Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues,

With continuously evolving wireless communication technologies and the imminent arrival of Next-G networks, innovative solutions to antennas, circuits, and systems are needed. This Special Issue of Electronics seeks to amalgamate state-of-the-art research and developments in the field of advanced wireless technologies, thereby facilitating the imminent generation of wireless communication systems. The compendium aspires to not only showcase the vanguard of current technological advancements, but also to instigate discourse on the potential future directions, ensuring a comprehensive understanding and readiness for the challenges and opportunities presented by Next-G networks.

This Special Issue aims to provide a platform for researchers, engineers, and academics to share their latest findings and insights into antennas, circuits, and systems designed for Next-G networks.

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
