Applications of Software Defined Networking

Guest Editor:

Dr. Habib Mostafaei
Technische Universität Berlin,
10623 Berlin, Germany

Deadline for manuscript submissions:
closed (31 August 2021)

Message from the Guest Editor

The main objective of this Special Issue is to focus on the recent applications of SDN in the various domains of wired and wireless networks. Potential topics include, but are not limited to, the following:

- SDN applications in network monitoring
- SDN applications in security services
- SDN applications in routing
- SDN applications in distributed application control
- SDN applications in resource management
- SDN applications in cloud networking
- SDN applications in the Internet of Things
- SDN applications in wireless sensor networks

Welcome to contribute.

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.
Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
