

eHealth and mHealth: Challenges and New Strategies in Information Exchange

Guest Editor:

Prof. Dr. José García Moros

Department of Electronics and
Communication Engineering,
University of Zaragoza, 50018
Zaragoza, Spain

Deadline for manuscript
submissions:

closed (15 October 2021)

Message from the Guest Editor

The Special Issue will publish innovative, timely, and high-impact original research papers and reviews on any aspect of communication technology innovations applied to eHealth and mHealth services. eHealth and mHealth solutions can improve the quality of health services by increasing shared decision-making and improving self-management by empowering patients and, therefore, may help to alleviate the burden on current traditional health services.

We encourage the submission of relevant manuscripts across the broad spectrum of communication technologies, with the following cross-cutting topics being of particular interest: health information management including acquisition, transmission, processing, data mining techniques, and storage; biomedical information exchange standards; privacy and security of the information and services; web-based, mobile and social media tools and applications.

We are looking forward to receiving your contributions that will provide researchers with up-to-date insights into communication technology innovations applied to e-health services from around the world.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
