

Electronics for Agriculture

Collection Editors:

Prof. Dr. Lei Shu

Prof. Dr. Simon Pearson

Dr. Ye Liu

Dr. Mohamed Amine Ferrag

Prof. Dr. Leandros Maglaras

Message from the Collection Editors

Electronics plays an important role in all fields, especially during the wave of the fourth industrial revolution (Industry 4.0). For example, ubiquitous sensing can be achieved through remote sensing, wireless sensor networks, drone swarm, and crowdsensing. Ubiquitous computing in any device, in any location, and in any format comes true with the help of embedded computing, edge/fog computing, and cloud computing. Benefitting from artificial intelligence and big data technologies, ubiquitous intelligence makes the world smarter.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
