Message from the Guest Editors

This Special Issue seeks high-quality papers that address issues related to cutting-edge smart city technologies in the electrification process. Topics of interest for this Special Issue include, but are not limited to:

- Electrification of building environments and transportation systems;
- Role and impact of smart grids for smart cities;
- ICT and IoT infrastructures with big data for smart cities electrification;
- Market, services, and business models for smart cities electrification;
- Standards and implementation for smart cities electrification;
- Advanced smart grid technology integration in smart cities, such as energy storage, demand-side management, and distributed energy resources.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
