

## Internet of Things (IoT)-Based Wireless Health: Enabling Technologies and Applications

Guest Editors:

### Dr. S.M. Riazul Islam

Department of Computer Science and Engineering, Sejong University, Seoul 05006, Korea

### Dr. Jaime Lloret

Integrated Management Coastal Research Institute, Universitat Politècnica de València, 46022 Valencia, Spain

### Dr. Yousaf Bin Zikria

Department of Information and Communication Engineering, Yeungnam University, Gyeongsan 38541, Republic of Korea

Deadline for manuscript submissions:

**closed (31 October 2020)**

### Message from the Guest Editors

The purpose of this Special Issue is to present recent novel advances in enabling technologies for IoT-based wireless health. Potential topics include, but are not limited to, the keywords listed below.

- Network architectures and platforms for IoT-based wireless health
- Applications and industrial trends in IoT-based wireless health
- Security and privacy features for IoT-based wireless health
- Policies and regulations for IoT-based wireless health
- Integration of big data and ambient intelligence with IoT-based wireless health
- Sensors and wearables for IoT-based wireless health
- Ontology and semantic knowledge for IoT-based wireless health
- Precision medicine and wireless health
- Machine learning and bioinformatics in wireless health
- Uses of smartphones in health care
- Technology convergence and standardization issues for IoT-based wireless health
- Energy-efficient protocols for IoT-based wireless health
- QoS Issues for IoT-based wireless health
- Cost Analysis for IoT-based wireless health
- Business models for IoT-based wireless health

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
