

## Networked Control Systems: Trends and Technique

Guest Editors:

**Prof. Dr. Jintiang Liu**

College of Information Engineering, Nanjing University of Finance and Economics, Nanjing 210023, China

**Dr. Xiangpeng Xie**

Institute of Advanced Technology, Nanjing University of Posts and Telecommunications, Nanjing 210023, China

**Dr. Yan Li**

College of Information Engineering, Nanjing University of Finance and Economics, Nanjing 210023, China

Deadline for manuscript submissions:

**closed (30 November 2022)**

### Message from the Guest Editors

We invite researchers and experts around the world to submit high-quality original research papers on potential topics that include, but are not limited to, the following potential themes:

1. Novel and effective methods on stability analysis and performance evaluation for NCSs;
2. Designs about data transmission strategy under limited communication resources;
3. Analysis of optimal control problem for NCSs with deep learning and reinforcement learning;
4. Stability analysis and security control with dynamic network topology for multi-agent systems;
5. Research studies on security control issues about data transmission in network channel;
6. Strategies on traffic arrangement and effective usage for communication network;
7. Algorithms on security control analysis based on game theory and machine learning;
8. Research and application of intelligent computing technology and big data;
9. Analysis of decision optimization problems in complex processes;
10. Studies of complex industrial process and applications of relative methods;
11. Stability analysis of data-driven modeling, control, and optimization;
12. Research and application of dual-encoder architecture with generative adversarial networks.

an Open Access Journal by MDPI

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
