Deadline for manuscript
submissions:

closed (31 October 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to compile the best work in the area of “Novel technologies in signal & image processing” that underscore new methods for analysing complex images and signals, multimodality systems, classification, regression, and quantification.

We invite submissions concerning the development of novel algorithms and technologies for image and signal processing. Survey papers and reviews are also welcome.

Application areas include, but are not limited to:

- Healthcare—Imaging, Decision Support Systems, Homecare, Telehealth, etc.
- Sensors—Monitoring, wearables
- Modelling
- Smart living
- Biophotonics for medicine

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
