

## Optical Sensing for Biomedical Applications

Guest Editors:

**Prof. Dr. Woo June Choi**

School of Electrical and  
Electronics Engineering, College  
of ICT Engineering, Chung-Ang  
University, Seoul 06974, Korea

**Prof. Dr. Jun Ki Kim**

Asan Institute for Life Science,  
Asan Medical Center and  
University of Ulsan, College of  
Medicine, Seoul 05505, Korea

Deadline for manuscript  
submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

This Special Issue “Optical Sensing for Biomedical Applications” aims to provide a forum for researchers involved in bioengineering and bioelectronics to report their significant results and developments or to provide an overview of research focused on the recent advances and in optical sensing and/or imaging technologies and methodologies for basic research, preclinical/clinical, and biological applications.

This Special Issue concludes the following topics, but not limited to:

- Optical sensing/imaging modalities
- Novel methods, algorithms, and principles in optical detection and biological diagnosis
- Applications of optical biosensors and optical probes in medical diagnostics, healthcare, cell biology, agriculture, environmental monitoring
- Methods to address issues of existing optical biosensors, concerning the fabrication, miniaturization, sensitivity, selectivity, applicability, accuracy, and biocompatibility
- Computer-aided detection/diagnosis
- AIs for biomedical image and signal data analysis

an Open Access Journal by MDPI

Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
