# **Precision Healthcare-Oriented Artificial Intelligence**

Guest Editors:

### Prof. Dr. Shing-Hong Liu

Department of Computer Science and Information Engineering, Chaoyang University of Technology, Taichung 413310, Taiwan

### Prof. Dr. Jia-Jung Wang

Department of Biomedical Engineering, I-Shou University, Kaohsiung City 82445, Taiwan

### Prof. Dr. Wenxi Chen

Biomedical Information Engineering Lab, The University of Aizu, Aizu-Wakamatsu City, Fukushima Prefecture 965-8580, Japan

Deadline for manuscript submissions:

closed (31 January 2022)

## **Message from the Guest Editors**

Recent advances in the health informatics, the artificial intelligence and sensing technique have increasingly attracted lots of interests from both industry and academia. Moreover, the precision healthcare issue becomes more important and critical due to promising achievements in the studies related to big data and deep learning application. This special issue, titled as "Precision Healthcare-Oriented Artificial Intelligence", will bring researchers and experts together to present and discuss the latest development and technical solutions concerning various aspects of advances in the artificial intelligence application in precision healthcare areas. This special issue welcomes your contribution of original unpublished articles focusing on theoretical analysis, biomedical signal processing, novel system architecture construction and integration, longitudinal and cross-sectional studies, and development of seamless monitoring devices.

### Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

# **Message from the Editor-in-Chief**

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science),

CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and Systems

Engineering)
