Deadline for manuscript submissions:
closed (30 May 2022)

Message from the Guest Editors

This Special Issue will focus on the different trends associated with security governance and information system security management to provide a broad and comprehensive view of this complex scenario.

Proposals for this Special Issue on ''Security Governance & Information Security Management Systems'' are requested to represent an overview of the current status of this research field, covering a variety of topics including, but not limited to, new standards, frameworks, methods, algorithms, solutions, and applications in the following areas:

- Cybersecurity governance and awareness
- Information security management systems
- Information system risk analysis and management
- Cybersecurity risk in Industry
- Security compliance
- Cybersecurity law & regulations
- Cybersecurity audits
- Business continuity plans
- Resiliency policy
- Maturity levels in information security management systems
- Emerging challenges in information security management systems
- Blockchain technology for information security management systems
- Quantum technology for information security management systems

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.
Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
