

Security, Privacy and Trustworthiness of Wireless Communications and Networks

Guest Editors:

Prof. Dr. Il-Gu Lee

Department of Convergence
Security Engineering, Sungshin
University, Seoul 02844, Korea

Dr. Heejung Yu

Department of Electronics and
Information Engineering, Korea
University, Sejong 30019, Korea

Dr. Jung Hoon Lee

Department of Electronics
Engineering, Hankuk University
of Foreign Studies, Yongin 17035,
Republic of Korea

Deadline for manuscript
submissions:

closed (15 January 2021)

Message from the Guest Editors

The purpose of this Special Issue of *Electronics* is to present the new advances and challenges in security research and development for wireless communications and networks. Topics of interest include discoveries of emerging security issues and threats that are encountered during the system design and development of wireless communications and networks as well as new security countermeasures and design methodologies. Relevant topics include, but are not limited to, the following:

- Threat and attack model
- Security risk analysis
- Security solutions
- Machine-learning-based security
- Security and trust of machine learning or artificial intelligence technologies
- Privacy-preserving technology
- Blockchain-based security solutions
- Authentication and access control
- Technologies for trustworthiness
- Secure PHY/MAC protocols
- Physical layer security
- Cross layer design for trust, security and privacy

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
