Deadline for manuscript
submissions:

closed (30 March 2023)

Message from the Guest Editors

Dear Colleagues,

Recently, as interest in the Metaverse and its interface has increased worldwide, in order for users to not feel the delay in the system, the prerequisite for these interfaces is to be able to operate in real time. In addition, these interfaces should be efficient and natural enough to resemble interactions occurring in the real world if possible. With the development of deep learning, various computer vision technologies have come to accurately recognize human behavior and poses of humans through cameras. This has made it possible to use human behavior as a tool for human-computer interfaces (HCIs) by simple devices.

The goal of this Special Issue is to highlight and invite state-of-the-art research papers related to real-time human-computer interfaces. Topics include but are not limited to:

- Computer graphics techniques for HCI;
- Artificial intelligence techniques for HCI;
- Computer vision techniques for HCI;
- Visualization techniques for HCI;
- Design techniques for HCI;
- Interactive art with HCI.

an Open Access Journal by MDPI

Editor-in-Chief

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
