

## Special Issue

# AI-Driven Intelligent and Secure Navigation in Next-Gen Autonomous Systems

### Message from the Guest Editors

This Special Issue focuses on intelligent and secure navigation in autonomous systems, particularly unmanned aerial vehicles (UAVs) and ground vehicles. We aim to explore advanced methods that improve autonomy, communication, and decision-making in dynamic and uncertain environments. We welcome various contributions covering decentralized and centralized control, secure communication, cooperative multi-agent systems, path planning, and decision-making strategies. Both AI-based and model-driven approaches are encouraged, as well as hybrid methods that demonstrate practical value and real-world applicability. This Special Issue will present recent progress in autonomous navigation while emphasizing the integration of navigation, control, and secure communication. It will bring together research that addresses these areas not in isolation but as interconnected challenges shaping the future of autonomous systems. We invite researchers and practitioners to share their latest findings on this timely and evolving topic.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
