submissions:
closed (30 September 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will cover topics major or minor which help to find solutions for circular economy and sustainable development problems, such as climate protection, sustainable natural resources management, regulations on sustainable investments, energy economics, environmental economics, environmental management, the inclusive nature of green transition, renewable energy, smart energy materials' sustainability and development, knowledge economy, and the management and financing of the green transition. Manuscripts on interdisciplinary research are especially welcome.

This Special Issue covers a wide range of topical issues, including:

1. Collaboration and shared value creation for circular and sustainable transition;
2. The circular economy and waste management solutions on the micro, meco and macro scale;
3. ESG and corporate social responsibility;
4. Sustainable consumption and distribution of energy.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
