

## Review Papers in Energy and Buildings

Guest Editors:

**Prof. Dr. Senthilarasu  
Sundaram**

Professor of Sustainable Energy  
Materials, School of Computing,  
Engineering and Digital  
Technologies, Teesside  
University, Tees Valley,  
Middlesbrough TS1 3BX, UK

**Prof. Dr. Karthikeyan  
Palanisamy**

Department of Automobile  
Engineering, PSG College of  
Technology, Coimbatore 641 004,  
India

Deadline for manuscript  
submissions:

**closed (31 July 2023)**

### Message from the Guest Editors

This Special Issue aims to focus on energy generation, utilisation and distribution within buildings; this includes renewable energy integration within buildings, power management, grid management and power conditioning. The focus is not restricted to energy and buildings, but also includes comfort living, healthy aging with comfortable buildings and digital energy controls for buildings. This Special Issue only accepts state-of-the-art reviews in the following topics:

1. Building-integrated photovoltaics;
2. Energy management systems;
3. Power distribution mechanisms for buildings;
4. Hybrid renewable energy systems for buildings;
5. Thermal comfort for buildings;
6. Building energy efficiency;
7. Artificial intelligence tools for energy utilisation in buildings;
8. Sensors for building and energy management;
9. Energy-efficient buildings through efficient renewable integration;
10. Power management in buildings.

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
