Advanced Research on Low-Carbon and Zero-Carbon Internal Combustion Engine Technology

Guest Editors:

Dr. Jing Qin

Internal Combustion Engine Research Institute, Tianjin University, Tianjin, China

Dr. Yiqiang Pei

State Key Laboratory of Engines, Tianjin University, Tianjin, China

Deadline for manuscript submissions:

closed (25 May 2024)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to present and be dedicated to the recent advances related to the theoretical analyses, simulation, combustion process organization and control, design and application of all types of low-carbon internal combustion engine technologies. Topics of interest for publication include, but are not limited to:

- High Efficient Flow, Spray, Mix and Combustion Technology
- Application of Low-carbon and Zero-carbon fuel
- Greenhouse Gas Emissions Characteristics and Control
- Control Strategy of High Efficient Engine
- Ultra-low Friction Technology
- Electrification Technology
- Intelligent Technology

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
