Deadline for manuscript submissions:

**15 November 2024**

### Message from the Guest Editors

Dear Colleagues,

In this special issue on the “Sustainable Development of Nanomaterials for Advanced Energy Fuels and Environmental Protection”, we strongly encourage you to submit original articles, reviews, and short communications, especially those focusing on the use of nanocatalysts in the fields of energy storage, biofuel synthesis, clean energy and resource production processes based on zero-waste technologies, pollution reduction processes and the application of synthesis products in environmental protection.

Keywords

- environmental catalysis
- nanomaterials synthesis and application
- power to gas
- energy storage
- hydrogen energy
- CO<sub>2</sub> methanation
- NO<sub>x</sub> reduction
- biomass conversion
- fuel additives
- biofuels in automotive industry

Dr. Maciej Kapkowski

Dr. Tomasz Siudyga

Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
