Deadline for manuscript
submissions:
closed (31 October 2023)

Message from the Guest Editor

Dear Colleagues,

In this Special Issue, the nexus between clean affordable energies and other sustainable development goals will be covered. Renewable energies, energy systems, innovative management approaches, and other areas of sustainable energies can be targeted. Special attention is devoted to social, economic, ecological, and political aspects of sustainability. The authors are encouraged to discuss the impacts of recent energy-oriented global issues, such as pandemics, wars, and conflicts, on earlier sustainable development plans and the future of sustainability.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
