Deadline for manuscript submissions:

closed (27 February 2024)

Message from the Guest Editors

Dear Colleagues,

At present, a new round of global scientific and technological and industrial transformation is booming. Electric vehicles are the main direction for the transformation and upgrading of the global automotive industry and green development, and also the strategic choice for the high-quality development of the global automotive industry. Authors are welcome to publish original research and review papers describing theory development, system applications, and algorithm demonstrations, including, but not limited to:

Advanced energy sources and electrical drive systems;

Automatic control strategies for electric and hybrid drive systems;

Energy Saving and Emission Reduction of Pure Electric Vehicles and Hybrid Electric Vehicles;

Driving Information Mining Based on Intelligent Transportation Systems and Advanced Algorithms;

Advanced control strategies for Electric driving Systems Considering Driving Information.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
