

Progress and Challenges in Energy Systems and Electrical Power

Guest Editors:

Prof. Dr. Ting Yang

Prof. Dr. Qiang Yang

Dr. Keyan Liu

Dr. Wei Li

Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editors

Topics of interest for this Special Issue include, but are not limited to, the following:

Energy saving technologies;

Energy storage technologies;

Renewable energy;

Thermal and power engineering;

Energy engineering;

Renewable energy technologies and systems;

Wind power;

Solar-related technologies;

Alternative fuels;

Nuclear power technology;

Thermal engineering and thermodynamics;

Smart grid/power IC

Cyber physical power system;

Artificial intelligence and energy internet;

Power system-wide area perception and advanced metering infrastructure;

Energy internet and carbon reduction;

Power machinery and engineering;

Electric vehicles and smart grids;

Electrical energy processing;

energi

Power systems and automation;

High voltage and insulation technology;

Electric motors and electrics;

Electrical engineering theory and new technologies.

an Open Access
Journal by MDPI

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
