

## Analysis and Numerical Modeling in Solar Photovoltaic Systems

Guest Editors:

**Prof. Dr. Laurentiu Fara**

1. Physics Department, Faculty of Applied Sciences, Polytechnic University of Bucharest, Bucharest, Romania

2. Department (Section) of Physical Sciences, Academy of Romanian Scientists (Academy of Sciences), Bucharest, Romania

**Dr. James Connolly**

CentraleSupélec, GeePs (Group of electrical engineering - Paris), 3 & 11 rue Joliot-Curie, Plateau de Moulon, 91192 Gif-sur-Yvette, CEDEX, France

Deadline for manuscript submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

This Special Issue looks for participation of international experts dedicated to “Analysis and Numerical Modeling in Solar Photovoltaic Systems” using strong scientific and multidisciplinary knowledge. We call for contributions from different disciplines on original/innovative approaches based on performant simulation tools, as well as review articles, applicable to analysis and numerical modeling in solar photovoltaic systems.

- Advanced solar cell, PV module, BOS, controller, inverter, electrical battery;
- Maximum power point tracking (MPPT);
- Fuzzy logic controller (FLC);
- Machine learning modeling;
- Autonomous (standalone) PV system;
- Grid-connected PV system;
- BIPV system; photovoltaic park; PV applications (PV pumping, PV lighting, etc.);
- Hybrid system;
- PV performance;
- RAMS;
- PV complex system

Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
