an Open Access Journal by MDPI

Advances in Wind Energy and Wind Turbines

Guest Editor:

Prof. Dr. Paweł Ligęza

Laboratory of Flow Metrology,
Strata Mechanics Research
Institute, Polish Academy of
Sciences, Krakow, Poland

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editor

Dear Colleagues,

Having the honor of being the Guest Editor of this Special Issue, I invite my colleagues, researchers, and experts in all scientific disciplines who research issues related to the broadly understood wind energy to share the results of their research in the Special Issue of the *Energies* journal on “Advances in Wind Energy and Wind Turbines”. The subject of the publications should correspond to the title of the Special Issue, and you will find thematic tips in the keywords. However, I encourage you to prepare a paper both in terms of the indicated topics, as well as in the other fields of wind energy, which you consider important and worth presenting to a wider scientific community. As researchers, we have a special influence on the development and improvement of energy obtaining and processing methods, while bearing in mind our responsibility for the condition and fate of our planet. Feel free to publish your research in this Special Issue!

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
