Research Institute, Jiangsu  
University, Zhenjiang 212013,  
China

### Message from the Guest Editor

This Special Issue is open to researchers, engineers, and students worldwide, focusing on ICNEV-related fields. The authors are welcome to publish original research papers describing theory development, system applications, algorithm demonstrations, as well as including but not limited to:

Deadline for manuscript  
submissions:

**closed (28 February 2023)**

- New energy vehicle technology
- Battery technology
- Environment perception technology of intelligent vehicles
- Vehicle localization and mapping technology of intelligent vehicles
- Planning and control of intelligent vehicles
- Simulation for intelligent connected new energy vehicles
- V2X and cooperative driving
- Sensors for intelligent connected new energy vehicles

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
