Advances in Thermophysics of Multiphase Flow

Guest Editor:

Dr. Guodong Liu

Harbin Institute of Technology,
School of Energy Science and
Engineering, Harbin 150001,
China

Deadline for manuscript
submissions:

closed (25 April 2023)

Message from the Guest Editor

This Special Issue aims to encourage scholars to present their latest original review and research papers in all aspects of thermophysics of multiphase flow. The analysis of thermophysics of multiphase flow could be based on numerical/analytical simulations or experimental measurements that can extend the bounds of existing theories/methodologies to new contributions addressing current challenges and engineering problems.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
