## Artificial Intelligence in the Energy Industry

Guest Editor:

**Dr. Ana-Belén Gil-González**

BISITE Research Group,  
University of Salamanca, 37007  
Salamanca, Spain

Deadline for manuscript  
submissions:

**closed (28 October 2021)**

### Message from the Guest Editor

Artificial intelligence is beginning to be used in the energy sector and is already proving essential by providing the industry and households with new information services in the control over energy infrastructure, optimizing generation, reducing consumption or fighting climate change, which are only some of the promises it holds in the near future.

Keywords:

- AI
- Machine learning
- Big Data
- Deep learning
- IoT
- Renewable energy
- Virtual power plants
- Smart grids
- Power grid
- Energy system
- Optimization techniques
- Control methods
- Energy storage system
- Energy consumption
- Smart forecasting

## Editor-in-Chief

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
