Deadline for manuscript
submissions:

closed (28 August 2021)

Message from the Guest Editors

Dear Colleagues,

As the Guest Editors, we welcome submissions to this Special Issue of *Energies* on the subject area of “Building-Integrated Photovoltaics (BIPVs) and Zero-Energy Buildings (ZEBs) in Smart Zero-Energy Cities”. This Special Issue is focused on identifying innovative technologies of BIPV systems and ZEBs in smart energy cities, including current research and design technologies, and solutions to improve renewable and sustainable energy applications in an effective manner for low- and zero-energy buildings. Studies considering demand response (DR) controls and impacts of BIPVs on a microgrid scale in an effort to achieve better smart zero-energy cities are also of interest.

Prof. Dr. Jongho Yoon

Prof. Dr. Dongsu Kim

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
