Bio-Inspired Materials for Energy and Environmental Applications

Guest Editors:

Dr. Samira Gharekhani

Department of Mechanical Engineering, University of Victoria, Victoria, BC V8W 2Y2, Canada

Dr. Farid Seyed Shirazi

Department of Manufacturing and Aerospace Engineering, Thunder Bay Campus, Confederation College, Thunder Bay, ON P7C 4W1, Canada

Prof. Dr. Anthony Anyia

National Research Council of Canada, Ottawa, ON K1A 0R6, Canada

Message from the Guest Editors

This Special Issue aims to cover recent trends in bio-inspired materials towards energy and environmental applications. This includes studies with emphasis on the synthesis, processing, and characterization of bio-inspired materials and their applications in energy conversion and storage systems (photovoltaic devices, fuel cells, solar cells, supercapacitors, and batteries), sensors and actuators, green fuel production, heat transfer, and adsorption and detection of pollutants, e.g., in water treatment processes.

It is our pleasure to invite you to submit a manuscript to this Special Issue. Full papers, short communications, and reviews will be greatly appreciated.

Deadline for manuscript submissions:

closed (31 March 2022)

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
