Innovation in Sustainable Energy Component, Concept and System Design

Guest Editor:

Prof. Dr. Peter Childs

FREng, FIMechE, Fellow ASME,
DPhil, BSc, CEng, Dyson School
of Design Engineering, Imperial
College London, London SW7
2DB, UK

Deadline for manuscript
submissions:

closed (15 February 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue call aims to attract papers reporting state-of-the-art advances in sustainable energy research in relation to component, concept, and system design. In particular, papers are welcome on examples of:

- Best practice;
- Understanding resource use and its wider impacts;
- Real-world applications, and definitive outcomes;
- Principles for new product development;
- Assessment frameworks, and design protocols;
- The consideration of unintended outcomes and their remediation.

Prof. Dr. Peter Childs

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
