

Community-Led Wood-Based Bioenergy Development

Guest Editors:

Dr. Nicolas Mansuy

Natural Resources Canada,
Canadian Forest Service,
Northern Forestry Centre, 5320
122 st., Edmonton, AB T6H 3S5,
Canada

Dr. Ryan Bullock

Canada Research Chair in
Human-Environment
Interactions, Environmental
Studies and Sciences, The
University of Winnipeg, Winnipeg,
MB, Canada

Deadline for manuscript
submissions:

closed (28 November 2022)

Message from the Guest Editors

This Special Issue aims to advance and document the multiple benefits, but also the barriers, in developing community-based bioenergy systems. In this context, the Special Issue invites multidisciplinary contributions, such as the environmental, technological, socio-economic, and institutional aspects of energy communities as well as their roles in the ongoing energy transition.

Keywords:

- Challenges and barriers
- Climate change mitigation
- Community-based management
- Cost-benefit analysis
- Energy independence
- Feedstock
- Forest residues
- Governance
- Indigenous community
- Off-grid
- Regulation and legal frameworks for energy communities
- Rural and remote community
- Sustainable forest management
- Traditional knowledge
- Woody biomass

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
