

Conditions and Changes in Energy Consumption

Guest Editors:

Prof. Dr. Agata Balińska

Institute of Economics and
Finance, Warsaw University of
Life Sciences—SGGW,
Nowoursynowska 166 St. 02-787
Warsaw, Poland

Dr. Agnieszka Werenowska

Management Institute, Warsaw
University of Life Sciences –
SGGW, Nowoursynowska 166 St.
02-787 Warsaw, Poland

Dr. Ewa Jaska

Institute of Economics and
Finance, Warsaw University of
Life Sciences—SGGW,
Nowoursynowska 166 St. 02-787
Warsaw, Poland

Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editors

Due to very dynamic socioeconomic and political changes, energy issues should be the subject of intensive research. Therefore, we invite you to a scientific discussion and encourage you to share your research results. The topics include, but are not restricted to, the following:

- Shaping attitudes with regard to energy consumption.
- Political stability versus energy security.
- "Green energy"—trend or necessity?
- The importance of international organizations for the energy market.
- Demographic changes versus energy consumption.
- Technological changes in the energy market.
- Research methodology on changes in energy consumption.
- Promotion of pro-ecological behavior in energy management.
- Social media as a source of information on sustainable behavior in the area of energy consumption.
- Mobile applications in the process of stimulating pro-ecological behavior in the area of energy consumption.
- Social responsibility in the area of energy consumption.
- Attitudes and behaviors towards renewable energy sources.
- Legal and institutional considerations of sustainable energy management.
- State policy in the field of renewable energy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
